IN THE CLAIMS:

1

2

3

Please cancel claims 1-3 and 5-7, without prejudice.

Please amend claim 4 as follows:

(Amended) A method for preparing a novel immuno-stimulating polysaccharide substance, comprising the steps of culturing Phellinus linteus Yoo (KCTC 0399BP) on media containing 3 glucose, yeast extract and peptone to give mycelia or fruiting bodies; 4 extracting the substance from the mycelia or fruiting bodies by hot water; 5 isolating the substance by precipitating in ethanol, suspending in water 6 7 and dialyzing with a dialysis tube; and purifying the substance by sequentially executing DEAE-cellulose 8 chromatography and gel chromatography. 9

Please add new claim 8 as follows:

--8. (New) A novel polysaccharide comprising glucose units which are joined by α (1 >4) and β (1 >6) linkages, which is produced by the method according to claim 4.--
